KEY SURGICAL IDENTIFICATION TAPE

Catalog pages 110 - 127

KEY SURGICAL IDENTIFICATION TAPE

Key Surgical Identification Tape is designed to help organize and track instruments as they move between sterile processing and the operating room. Our Identification Tape will help save time, effort and money by offering effective organization and identification of your surgical instrumentation. We have the broadest selection of marking tape available, and our tape is colorful, easy to use and economical.

Key Surgical Roll Tape is available in nine bright colors and three widths to meet all your identification needs. It is easy to apply, and it stays where you put it, even through repeated sterilization cycles. And as always, our tape is latex-free.

Key Surgical Pre-Cut Sheet Tape is now available in 271 colors and styles. Our solid pre-cut sheet tape comes in seventeen bright colors and two widths. We have recently added 73 new styles to our line of patterned pre-cut sheet tape, which means we continue to have the largest variety and the greatest selection of colors and styles available. All of our tape is designed to adhere securely to instruments. It also resists chipping, flaking, peeling and cracking through repeated sterilization cycles.

Key Surgical Adhesive Remover is an instrument-friendly solution that makes it easy to remove our durable identification tape. It is environmentally safe, with no hazardous solvents or toxic fumes, and it is safe on most surfaces. Our Adhesive Remover dissolves tape residue quickly and easily and restores instrument surfaces to their original condition.

Roll Tape

Adhesive Remover

Solid Pre-Cut Sheet Tape

Patterned Pre-Cut Sheet Tape

Identification Tape – Roll Tape

ROLL TAPE

Withstands repeated sterilization cycles. Latex-free. 250" total length. Available in three widths.

	Color	1/8" Width	1/4" Width	3/8" Width
A	white	T-01-01	T-02-01	T-03-01
