KEY SURGICAL INSTRUMENT PROTECTION

Catalog pages 000 - 013

KEY SURGICAL INSTRUMENT PROTECTION

Key Surgical Instrument Tip Caps are designed to extend the life of your instruments. Our caps protect your valuable instruments from unnecessary wear and tear, helping to reduce repair costs while giving you the peace of mind that your instrument investment is being protected as well.

Key Surgical Instrument Tip Caps are available in a variety of shapes and sizes to fit all your instrument protection needs. We have the perfect cap for each of your various instruments – from skin hooks to scissors to scopes – which means you can protect all your instruments with the highest-quality caps. For your convenience, we are constantly expanding our selection of caps with additions such as our new Specialty Scope Caps and Tapered Caps.

In addition to protecting and extending the life of your valuable instruments, Tip Caps also help to protect sterilization packs from puncture as well as protect employees from sticks by sharp instruments.

Key Surgical Instrument Tip Caps are available in a wide range of color and venting options. Whether you require brightly colored caps for easy identification or clear caps for easy inspection, our cap selection is designed with your particular needs in mind. Caps are available with or without air vents for easy removal, depending on your preference. And of course all of our caps are radiopaque, disposable, latex-free and fully steam sterilizable.
